

## Brother 2 Brother

Young males can only be what they see. Sign your son, nephew, cousin, or any young male up for this much needed experience. Let's take back 'Our Sons'.

### A Safe Haven for Manhood Training

Black males in contemporary society face many challenges that shape their physical, psychological, and social development. The National Criminal Justice Commission on Imprisonment and Race estimates that, by the year 2020, 63 percent of all black men ages 18 to 34 will be behind bars.

**Brother to Brother (B2B)** is a **mentor and coaching program** dedicated to assisting in the development of young minority males into responsible, productive men. These workshops are a byproduct of the First Annual Brother to Brother Seminar held May 9, 2009 in Richmond, VA. The workshops will provide participants with a safe environment to learn what it takes and what it means to be a man. We will evoke a spirit of greatness, and help participants grow into the "crown" that has been placed above their heads.

**First Annual Brother 2 Brother Conference--** The participants were "Tied to Greatness" with Alex Ellis of Tied to Greatness (NJ).

We can provide **B2B** in various formats: hourly workshops, one day seminars, weekend retreats, a weekly workshop series, or ongoing mentor/coaching support. We can also establish a customized package to fit your organizational needs. For more info give us a call.
